

Sports Premium Funding

Sports Premium is funding paid into the school from the government. The aim of this funding is to improve lifestyles and tackle obesity and other health related issues.

2013-14

- At Netherbrook we received £5998.00 Sports Premium funding for the 2013-14 financial year. This funding has been spent on
- High quality after school sports provision including multi sports, football and netball.
- Training and development of the school football team.
- High quality active playground equipment for Key Stages 1 and 2.
- Training for lunchtime supervisors and staff
- A new active climbing frame for the EYFS outdoor area.

The aim of this investment is to improve the lifestyles and overall health of the pupils in the school. We are currently redeveloping our dining hall and improving the quality of both the school dinners and the overall dining experience for pupils to further enhance the effects of this funding.
