

Working with Others

- Play the 'Roll and Draw a Plant, game with someone.

To play this game you will need a 1 - 6 dice, a pencil and paper and a friend or family member to play with.

All plants are made up of different parts - roots, the stem, leaves and flowers.

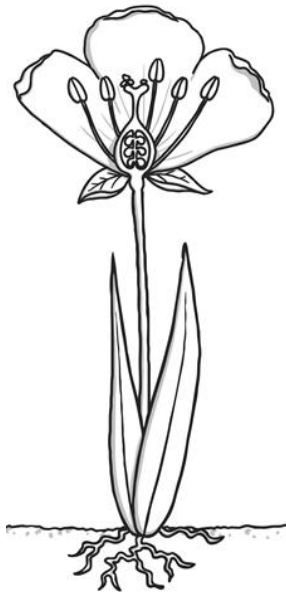

The aim of this game is to draw a complete plant by rolling the dice.

You can draw a different part of your plant each time you roll a number:

- 1 = the roots
- 2 = the stem
- 3 = the leaves
- 4 = the petals
- 5 = the stamens
- 6 = the style and the stigma

If you roll a number you have already had, you should miss a turn.

Who will be first to draw a complete plant?!

- Work with someone to make a daisy chain for yourself or someone in your household.

English

- Write an acrostic poem for FLOWERS. For

A worksheet titled 'How to Plant a Seed'. It has a space for 'Name' at the top. Below the title, it says 'Write the steps you take to plant a seed.' There are four sections, each with a watering can icon and a label: 'First', 'Next', 'Then', and 'Last'. Each section has several lines of handwriting practice.

- Do some research about how to plant a seed. Now write a set of instructions for someone to follow. Remember to use bossy/imperative verbs e.g. put, take. Also, you need to use time connectives eg. Next, after that.

Art/Music

Health and Science

- Make sketches of different flowers and trees. Use colour to bring your sketches to life.
- See how many song titles you can find with flowers in them. Make a list of your top ten.
- Make a collage/picture using twigs, leaves, grass and flowers.

- Draw and label the parts of a plant. Try to explain the job of each part of the job.

- Plants are living things. They need certain conditions to help them grow well.

Have you ever looked after a plant? What did you have to provide it with to help it

to grow?

What do you think plants need? Share your ideas with someone and write them down.
