

Year 5 – Growth Home Learning Pack 6

22/06/20-03/07/20

Hello Year 5,

We hope that you and your families are all well. This pack will take us in to July! It is still based on our topic of Growth and based around our class reader, 'There's a Boy in the Girls Bathroom.' We hope you have enjoyed the tasks so far. The Science is still based around how humans grow. If you want to teach your child about Puberty, then please e-mail us to request the PowerPoints to help. Don't worry though, your child will get taught this again in Year 6.

As usual, we have created a topic pack and an English pack. Miss Johnson has written a separate letter to explain your Maths tasks and there is a separate Maths pack for Mrs Cashmore's Maths group.

You should still be aiming to complete 3 activities per day. 1 English, 1 Maths and 1 topic activity. This should take 2-3 hours. Try to read a book each day too. Of course, if you want to do more, you can. Continue to complete work in the exercise book that you were given or on your own paper if you want to. If you require a new book, the school office can provide new ones.

When completing writing tasks from the English sheet, continue to try to use the range of complex sentences we have learnt in class. These include relative clauses, simile openers, 'ing' openers and 'ed' openers.

Remember to use commas to separate the clauses.

Read every day. Use the VIPERS pages at the front of your planners. These have lots of questions to deepen and test your understanding of the text. As well as this, try and practise the focus spellings that we have attached to the English sheet. There are word mats to help you practise each of these words in more detail. If you want to complete more, then you can look back at the word list from the first learning pack.

In Maths, the focus is Roman Numerals. Please read the Maths learning overview sheet and the additional sheets to help you. We will set you some Mathematics tasks also and don't forget to go on TT rockstars to continue practising your times tables. There's no better time to practise and remember all of these facts!

In addition to these activities, you could explore Spelling Shed, Topmarks and Education City's websites. They have lots of great year 5 activities. We will continue to send you daily messages and give you prompts each day of what learning you could focus on.

We hope you enjoy your next learning pack. You can access all of the resources from school life and the school website. Keep sending us your lovely photos to YEAR5AC@netherbrook.dudley.sch.uk or YEAR5VW@netherbrook.dudley.sch.uk.

Finally, if you feel that your child is struggling with their own well-being during this uncertain time, then you may find these websites useful.
